

### PERFORMANCE THAT RELIEVES PRESSURE

The issue can no longer be ignored. You need to prepare, implement, manage, and monitor environmental, health, and safety practices across your enterprise. But how? You have complex business processes, software integration challenges, and limited resources. Yet year to year, the pressure builds ... to reduce risk exposure, manage changing regulations, limit liability, rein in operational costs, provide transparency, and produce quality results.

### OUR EXPERIENCE

Langan has data driven insights and solutions to your environmental health and safety (EHS) compliance and information management challenges. We are an international consulting firm with an integrated mix of technical disciplines that have helped our clients achieve their goals for nearly half a century.

We have successfully delivered EHS business and technology solutions to multiple clients across a variety of market sectors, including utilities, oil & gas, transportation, corporations, manufacturing, and pharmaceuticals. Our national brings more than 25 years of experience to your project.

### OUR REACH

- Dubai

### TECHNOLOGY SOLUTIONS

# OUR SERVICES

## INCIDENT MANAGEMENT

Reduce operational risks by providing tools to recognize, analyze, and reduce hazards, incidents, and near misses.

## OCCUPATIONAL HEALTH

Identify hazards, implement surveillance protocols and controls, and manage illness/injury data to ensure compliance with EHS programs.

## WORK CLEARANCE MANAGEMENT

Keep your employees and production assets safe and secure with an integrated risk management and safe work program solution.

## ENVIRONMENTAL COMPLIANCE

Cultivate a culture of compliance to satisfy regulations and operating permits, manage internal environmental policies, and reduce emissions/waste discharges.

## WASTE MANAGEMENT

Automate, integrate, and streamline waste collection, treatment, transport, disposal, and reporting.

## PRODUCT STEWARDSHIP

Integrate chemical substance and supply chain data, identify all products containing specific chemicals, accelerate customer care, and confirm compliance.

## MANAGEMENT OF CHANGE

Mitigate risk throughout the business cycle by strategically managing changes made to equipment, substances, operating conditions, systems, personnel, and processes.

## ASSET MANAGEMENT

Determine the optimal balance between operational and financial performance, and the risks inherent along the lifecycle of business assets.

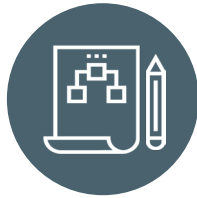

# OUR APPROACH

Our team employs a proven approach to prepare, implement, manage, and reinforce the organizational frameworks required to simplify and operationalize your EHS management systems. We work with you through a five-part process to execute day-to-day operations while meeting your strategic goals.

1 | Discover and Prepare

2 | Design and Blueprint

3 | Build and Configure

4 | Finalize and Rollout

5 | Train, Maintain, and Support

LANGAN TECHNICAL EXPERTISE

# OUR VALUE

- Enhanced reputation and stronger brands
- Increased value and sales of products and services
- Reduced liability and risk exposure
- Enhanced regulatory compliance and transparency
- Increased health and safety of employees
- Improved business performance
- Decreased operational costs
- Clearer priorities for strategic planning
